

Do not remove or weaken our 'do not call list' in Wisconsin. I am thrilled at not being disturbed at all hours by telemarketers! I pay for my phone, if the telemarketers want to pay for MY phone service... great. Until then, I do not want the hard-earned money I make being used by them. It is a service that I pay for and it is a private line. We have the right to have a no soliciting sign on our doors, and should have the same opportunity for our phones.
